JESSE M. UNRUH
Torrance Day

Local Demo Clubs Plan Unruh Day

Jesse M. Unruh, speaker of the California Assembly, will be honored by the 68th Assembly District Democratic Committee on Nov. 22. Local Democrats will head up the Torrance Day for the speaker.

A tea in Unruh's honor will be held at the Torrance YWCA from 2 to 4 p.m., with the wives of members of the Torrance Democrats, Inc., serving as hosts.

A reception for Unruh will be held at the Jump 'n Jack Restaurant from 6 to 8 p.m. Torrance Democrats, Inc., will host the evening affair. Business and political leaders of the community have been invited to join with local Democratic organizations at the reception.

Mrs. Dan Butcher will head the committee for the tea. Others who will assist include Mmes. Rene Dean, David K. Lyman, Ronald Rudy, Leo Salisbury, Roger West, and Robert White.

In extending an invitation to the community to attend the reception, David K. Lyman, chairman of the 68th District Democratic Committee, said, "I hope that the people of Torrance will attend the tea so they can judge for themselves the true worth of an individual who is considered one of the nation's most able legislators."

New Facial Exerciser Available

A unique new electronic device designed to firm facial muscles and give the skin a new look is now in use in Torrance.

The device, manufactured by Zeigler Electronics of Gardena, reaches deep-lying, delicate facial muscles to give the skin a new firmness and diminish drooping contours around the eyes, mouth, and jowls.

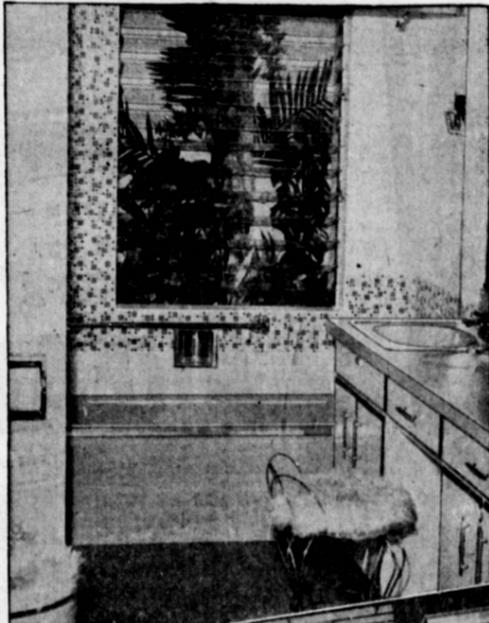

The Zeigler Facial Exerciser is available at the Zeigler Salon, 1624 Gramercy Ave., or through counselors who visit the home upon request. The Torrance salon is now open and trained counselors are available.

Viola Yates, a resident of Torrance, manages the new salon. She has extended an invitation to visit the salon, which is open from 9 a.m. to 5 p.m. Monday through Friday, and evenings and Saturdays by appointment.

The exerciser was designed especially for the woman over 30, says Maxwell Zeigler, president of the manufacturing firm. It operates through electronically-controlled pulsations to reduce certain aging characteristics, reports Zeigler.
